

March Dealership Service Revenue Decreases, Ticket Volume Recovers

Repair Order Volume Index increases 4.5%, Repair Order Revenue Index decreases 0.6% month over month

About the Xtime Index

Repair Order Volume and Repair Order Revenue

The monthly Xtime volume and revenue metrics are designed to showcase average service department performance over time, with the information indexed to January 2019. The two top-line measures provide a glimpse into service department performance at franchised dealerships in the U.S. Xtime, a Cox Automotive brand, provides software that helps auto dealers facilitate more than 10 million service appointments monthly.
